Mediterranean Sea Breeze

You get there by bus through the military check point.

But its your imagination that really gets you there... A certain transformative vibration from deep within. Long before the mid-day breeze gently brushes your face, you walk through the old city thinking of simpler times.

Nothing you have ever imagined can compare to this experience you are embarking on.

Lamb of God Painting by Artist Chris Moran (No 13).

Inspired by the birth of Jesus, this painting shows his future sacrifice on the cross. The light over him is in the shape of the cross and he is postured as he will be on the cross.

There are three nails lying next to Jesus' feet and hands, representing the victory over the cross. The nail by his feet, slightly bent over in the wood, represents the struggle he had in the garden.

The Trinity is seen with the three lambs. The lamb sleeping represents the peace God brought to us, the one looking down shows us the curiosity he brought to the world and the lamb that Jesus is touching shows us the personal relationship that he has with us.
